

Day after day FCC will blame third parties for their shocking unreliable over priced service.

It is now common practice for customers to complain via @firstCC about the daily delays, cancellations & overcrowding conditions.

In response FCC blames the situation in the hands of Department of Transport. Also if customers complain about the short formations or cancellations FCC offer the patronising response “we’ve got on trains coming in 2018”.

It’s all very well telling customers who pay £4k a year that they need to wait a further 5 years but what about the 7 years of FCC promises that have yet to be seen!

FCC promised more drivers back in 2009 but the new driver program only replaced the regular turn over.

FCC will claim on their performance charts of third party disruption problems yet cancellations caused by a lack of drivers as far frequent and disruptive yet FCC will not publicly declare such issue. Why is that?

22nd July 2013 – Overrunning engineering work at Streatham

7 trains cancelled due to train faults

2 trains cancelled due to no driver

22 GN trains were partly/fully cancelled due to network Rail issues

19 TL trains were partly/fully cancelled due to network Rail issues

26th July 2013 – Sunny Friday and the is the school holidays

50 trains were cancelled due to no driver available

28 July 2013 - Overhead line problems near Farringdon

57 TL trains were partly/fully cancelled due to network Rail issues

30 July 2013 - Tree branch on overhead lines at Oakleigh Park

6 GN trains partly/fully cancelled due to self FCC issue (2 Full)

2 TL trains partly/fully cancelled due to self FCC issue (1 Full)

7 GN trains were partly/fully cancelled due to network Rail issues

2 TL trains were partly/fully cancelled due to network Rail issues

11 August 2013 Overrunning engineering work south of New Barnet

7 GN trains were partly/fully cancelled due to network Rail issues

6 TL trains partly/fully cancelled due to self FCC issue (

FCC MUST GO!
